7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

At least two institutional best practices Best Practice 1: To nurture and foster a positive campus climate for holistic formation of students, to cater to the psycho-social wellbeing of the students. To facilitate and empower students for self-development and actualization. To create cohesive, congenial and supportive learning relationships between student-staff caregivers to help students evolve at their best. A student who is enrolled for college is faced with countless challenges. The unfamiliar surroundings, cultural shock, Peer pressure, pressure to perform, physical challenges, career choices, relationships, identity formation are just some examples of issues that confront the young minds. Though a majority of students find ways to cope with these issues, a number of them struggle for support ending up making unfavorable choices. This affects their academic performance and the ensuing future. Hence it is important to provide a stigma free mainstream service within the academic framework with far reaching effect. The Indian higher education system is undergoing a large transition. There has always been a large disconnect between the school and the college system. In schools especially in the terminal tear of 12th standard the students are subjected to tremendous pressure to score marks to get to the right college and the preferred course. When they enter college, especially from rural areas they have earned a new found freedom in terms of choice of subjects, learning habits, social world and interaction with a larger society. It is in this context, that the counseling and mentoring become relevant. The counseling and mentoring support was designed to cater to all the undergraduate students. Mentoring is a mainstreamed activity that overarches every department. Mentors are experienced faculty members who have signed up to support the student academically outside the scheduled class hours. Every student is assigned a mentor with whom he/she can discuss any issue of concern or that comes in the way of optimal learning. The students are encouraged to meet their mentors at regular frequencies. Addressing the problematic issues of the personal domain of the student's life has shown an improvement in their academic pursuits as well. Students feedback reflects positively an academic and personal mentoring in helping them cope with their life. The overall performance of the student is analyzed by viewing the Academic Mentoring. Best practice 2 The following eco - friendly measures are taken by the institutions • Soak pits • Plantation • Pruning of Plants • Lawn Moving • Competitions like essay writing and poster presentation were conducted for the students • No vehicle day observed twice this year.
